- 1) Find total annual family income
- 2) Find family size

When using sliding scale:

- You will find that there is a high & low range for each family size
- As a general rule, please use the higher fee, when possible.
- In exceptional cases, you may decide to use lower fee based on your evaluation of the family situation.

During this fee increase phase, if necessary you have the flexibility to offer a \$25 reduction for the 2nd child/session and a \$50 reduction for

the 3rd child/session
